NEW ADVERTISEMENTS

A DISEASE WITH A HUNDRED SYMPTOMS.—Such is dyspepsia. It may be said to simulate almost every other complaint. Hot flushes and violent palpitations of the heart, which seem to indicate serious difficulty in the vital organs, are often caused solely by indigestion. A single dose of Bristol's Sugar-coated Pills will in that case be sure to afford relief. In fact they are always a safe and useful medicine, as they tend to reduce febrile action of every kind, without weakening the bodily powers. In all ailments the stomach, the liver are more or less affected, either sympathetically or directly, and upon these organs the Pills operate most beneficially. cj—jy20

POSTAL CONVENTION.

We want a Postal Treaty sadly, between this country and England. The inconvenience of prolonging the present state of things is manifest to all but Her Majesty's Government, and perhaps an address from the 30,000 British settlers in the River Plate to Mr. Monsell would induce that distinguished gentleman to retrace some of the ante-diluvian policy which he has adopted with regard to S. America.

Last year when the Chilian Government, which pays a subsidy of £12,000 a year to the Liverpool and Pacific steamers to carry the mails, proposed to Mr. Gladstone's Government a postal treaty the reply of Earl Granville, in a letter from Downing Street, in April 1872, which we published some months ago, was "that the British Government disliked making such 'treaties with remote countries "like Chile, where the correspondence "was comparatively insignificant." At the same time the Liverpool post-office had instructions to charge 6 pence on every letter, arriving from Chile in the steamers exclusively subventioned by the Chilian Government, without other shadow of reason than the fact that the post-office pays so many shillings per bag of letters brought by such steamers.

The British Post-Master General, at whose suggestions Earl Granville wrote, snubbed Chile in a manner calculated to make Chilians anything but friendly towards England, and it ssems this same policy will be followed with the R.Plate. If they refused Chile while paying the sole expense of mails to and from England, we can hardly expect to be better treated when we pay nothing for carrying the mails to or from the Argentine Republic. Mr. Monsell and Earl Granville will tell us probably that although 5 million letters and papers annually can hardly be considered insignificant, the British Government dislikes making a treaty with us because the River Plate is nearly as remote as Chile.

Luckily we are not so dependent on Her Majesty's mail-packets as our predecessors were, when the Countess of Chester was the sole conveyance to or from England. We have thirty steamers monthly between Europe and the River Plate. The bother is, that it seems the post-office authorities in England will tear off any postage stamps we may put on. It does not suit us to tax our friends at home with postage both ways. Under the circumstances we have an only remedy left, to get supplies of postage-stamps from London, and enclose one in each letter we write, apologizing for so doing on account of the obstinacy of Mr. Monsell and Earl Granville in considering us as too remote and insignificant for a postal treaty.

THE LATE LORD MAJORIBANKS.

David Robertson, Baron Majoribanks of Ladykirk, Berwick-on-Tweed, who died on June 19th, a few days after his elevation to the Peerage, was representative of the oldest families in Scotland, as will be seen on reference to Burke's Landed Gentry.

He was youngest son of the late Sir John Majoribanks Baronet, and married in 1843 Mary Sarah, eldest daughter of Sir Thomas Haggerston, Baronet, of Ellingham, Northumberland, heiress of William Robertson Esq. of Ladykirk. On succeeding to the Robertson estates he assumed that name, was Deputy Lieutenant and M. P. for Berwick, being a consistent supporter of the Liberal party in the House of Commons.

The family of Robertson, whose arms and motto he adopted with the estates, is one of historic importance in the annals of Scotland, and some of its members distinguished themselves in the Austrian, Dutch and French services, besides taking part in the Jacobite wars.

The Robertsons of Struan, from whom was descended William Robertson of Ladykirk, had for ancesters the Mac Donalds Lords of the Isles and Henry, Earl of Atholl A. D. 1220, whose daughter married Alan Durward 'the most accomplished knight and best military leader in Scotland," and his grandson John married the sister of King Robert Bruce.

Duncan of Atholl is regarded as the immediate ancestor of the Robertsons, and from him the Highlanders call the family Clan Donachy, the present head of the Clan being Major Robertson of the 42nd Highlanders, and younger branches represented by the Robertsons of Lade and of Tullybelton.

Robert of Atholl, who arrested the murderers of James I. received a barony and estates for such good service A. D. 1451, and his second son was a gallant soldier, being raised to the peerage as Earl of Portmore. The elder brother assumed the name of Robertson, married the daughter of Lord Glammis by whom he had a son, Andrew, ancestor of the Robertsons of Ladykirk.

Alexander Robertson (1703) was a General in the Dutch service, and his nephew, Donald, a captain in that of France. During the wars of Montrose the Clan was led out by Donald Robertson, the Tutor of Strowan, who took a very distinguished part in these wars, and his nephew Alexander Robertson, the poet, played a similar *role* in the Jacobite wars of 1715 and 1745. Some of the estates were confiscated to the Crown in 1752, and restored in 1784, to Col. Alexander Robertson, who married Mary Best of Mansfield, Yorkshire, and his son General Robertson after 30 years of active service received the Austrian cross of the Order of Leopold.

The Robertson arms are 3 wolves' heads and a wild man in chains, the crest a hand holding an imperial crown, and the motto "Virtutis gloria merces."

The family of Marchbanks or Marjoribanks takes its name from Marjorie, daughter of King Robert Bruce, inheriting a portion of the Marjoribank estates in Mid-Lothian, and abandoning the original name of Johnstone. A junior branch of the family is in Berwickshire, besides the Marchbanks of Dumfries. James Marjoribanks had two sons, one of whom inherited the estates, and was grandfather of the famous oculist Wardrop, surgeon to George IV.; the second son, George, went to Waterford, and settled there. Alexander Marjoribanks (1790) married the grand-daughter of the famous Erskine, and had issue 8 sons and 4 daughters: one of the former went to Jamaica, another was drowned from H.M.S. Confiance, off Cork, a third entered the E. India service, and a fourth went to Australia. The present owner of the estates is Alexander Marjoribanks, J.P., of Majoribanks, Mid-Lothian, born in 1792.

The deceased peer was born on April 2nd, 1797, and had consequently reached his 77th year. The title and estates descend to Thomas Haggerston Robertson, his eldest son, born November 7th, 1843. The late Baron Marjoribanks also leaves two daughters; Sarah, married in 1856 to Watson Askew, Esq., of Pallinsburn, Northumberland, and Alicia-Margaret.

PROVINCIAL GOVERNMENT TELEGRAPH.

The President of the Board of Directors of the Western Railway has presented to the Government the report of the manager of the Rosario Telegraph line, a summary of which will be found below. In doing so he calls attention to the large amount of work done, notwithstanding the competition at lower rates of the National Telegraph, and augurs a better financial result for the current year, which so far shows an increase of 33p%. in the receipts over last year up to the same date. He also reports that, in consequence of certain radical defects in the system of insulators which was used in the construction of this line, very heavy expenses have been incurred in repairs, and that an entire change has been determined on, new insulators and wire having consequently been ordered out from England; when these changes are concluded the line will then be in excellent order, and available for the anticipated great increase of business.

The report is as follows:—

Telegrafo del Estato,
June 27th, 1873.

To the President of the Western Railway.

I beg to hand you the accompanying sheets in which are detailed the operations of this line in the year 1872.

The total number of private telegrams was 64,169; the receipts from all sources amounting to $724,590 m|c. The gross expenses were 988,584 m|c., or $263 994 m|c. in excess of the receipts. If, however, we deduct $79,632 for the cost of work done on the line, as is explained further on, and which cannot fairly be considered as ordinary working expenses, and allow for the Government work, amounting to $22,125, which was done in the year, the deficit is reduced to $162,237.

It is from no unforeseen cause that this line has not given the satisfactory pecuniary results which had been observed in previous years. When in June, 1871, the National line commenced working at an excessively low rate with San Nicolas, Rosario, and Cordoba, and when in the following month our own rates were reduced 40 per cent., it became evident that we could no longer expect large receipts, but must confine our efforts to neutralising, by the superiority of our service, the competition of the National line.

The following figures prove the success with which this has been done, notwithstanding the bad state of the line as regards stability and insulation.

Between this city and Rosario 16,204 telegrams were passed, our charge being $12 m|c., against $6.25, which is the National charge. 1,451 messages addressed to National stations beyond Rosario passed over our line, the senders of which were willing to pay the extra charge incurred for the sake of the greater security and rapidity of transmission.

4,250 messages passed between here and the different stations on the Central Argentine railway, although the difference between the National rates and ours is even greater still in this case.

Adding up these figures we find that in 22,905 cases, the public has preferred to use our line, notwithstanding the much higher rate charged. Here we have an eloquent proof of the credit which this line enjoys, as also of the fact that the public does not appreciate a low tariff if not accompanied by a certain amount of accuracy and rapidity in the transmission of the messages.

The following figures show the progressive yearly increase in the number of telegrams—

	Telegrams	*Increase*
1869 (8 months)	14,6 9	..
1870	29,341	..
1871	55,538	26,197
1872	64,169	8,631

(The excessive increase in 1871 is due to the epidemic.)

The average price charged for each message, and its cost, calculated on the gross expenses for the year are as follows:—

	Average receipts per message	Average expenditure
1869 ..	$37 m/c.	$23,14 m/c.
1870 ..	28,39 „	25,92 „
1871 ..	16,52 „	16,55 „
1872 ..	10,76 „	15,40 „

Tariffs.—No alteration was made in the public rate during the year, the charges being already so low as not to admit of further reduction.

Nevertheless to facilitate communication with Cordoba a through rate of $14 m|c. was established, to be divided between the Central Argentine Railway Telegraph and this line.

The Transandine line being finished in July, the secretary of that company, who had had ample opportunity during his stay here of observing the respective merits of the two lines which communicate with Villa Maria, resolved to use our line exclusively for the transmission of all private messages coming from their offices. A through rate of $75 m|c. from here to Chile was agreed upon. In the five succeeding months 2,115 messages passed between this and the Transandine lines.

The above figures show the great importance that through messages addressed to places beyond our own line are acquiring. Last year they amounted to 12,000, and will increase very considerably in number when the cables which will unite Montevideo with Brazil and Europe are laid.

During the past year, on account of the frequent breakages in the wire, it was found necessary to thoroughly repair the whole line. The defects were caused by the friction of the wire in the hook of the insulator. This had proceeded to such an extent that the wire was nearly cut through at every post. Practice has proved the worthlessness of the insulators used, as in addition to the above-mentioned peculiarity, they are apt to be internally damaged by lightning, in such a manner as to have their insulating capacity very seriously impaired without showing any external sign of damage. Till they are replaced with others of a different construction we shall not be free from the tedious and costly repairs they require.

I remain,
Your obdt. servant,
L. B. TRANT,
Administrador.

That the secretary be instructed to convey to the retiring President of the Club, Mr. Parish, the sincere regret of the members at his departure from the country, and their appreciation of the warm support he had consistently rendered to the Club during his connection with it.

That a vote of thanks be given to the outgoing Committee.

That the best acknowledgments of the meeting be tendered to the chairman.

Report of the outgoing Committee for the year ending 30th June 1873.

Gentlemen,

The Committee, in presenting their report for the cricketing year just ended, are enabled to submit to the members the customary statement of the operations of the Club during their term of office.

The season was opened on the 15th of August last, and closed on the 10th April; during which period some eight matches have been played with other clubs, 4 resulting favorably, 3 unsuccessfully, while the remaining 1 was drawn.

Amongst the most interesting of the contests must be recorded those with the Montevideo and Entre Rios Clubs [the former old antagonists] whom the Committee were right glad to welcome at Palermo and renew their friendly rivalry, while the latter, a young club but recently established, they had the pleasure of meeting for the first time at Fray Bentos, and it is to be hoped in the interests of cricket that this match may become what it promises to be, an annual one.

The engagements which have been able to be completed with suburban clubs have also added considerably to the attractiveness of the programme, and the clubs of Lomas and Flores, offshoots of the parent club, have held their own in our contests with them, tho', it is but fair to remark, that the Buenos Ayreans, when meeting the latter, were very far from being strongly represented.

In the hope of infusing additional spirit and zest into the game and induce a more numerous attendance on the ground during the session, a single-wicket tournament was arranged, which the Committee believe has fully realized the object they had in view, and though the deciding match resulted in a tie, it is understood that it will be played off on the first opportunity.

The principal batting averages, taking six innings as a minimum, are as follows:

	Innings.	Av. runs.
H E Oxenford (winner of prize bat)	7	18
Thomas Hogg	7	11
T Menzies	9	10·66
A Moore	7	7 75
G Menzies	6	5·60
A Clark	11	5 36
A W Rooke	6	5·2
E Lace	11	4·54
W L Jordan	7	4·20

While among those who have taken part in a less number of matches, the following are conspicuous:

	Innings.	Av. runs.
W J Plowes	2	20
James Hogg	2	9·50
F Jacobs	2	9
H W Goodhall	3	9
H F Marshall	4	8
J Haywood	2	7
R O Watson	2	6

In the bowling department the Club has, as usual, been greatly indebted to A. Clark, and G. and T. Menzies, who have on various occasions done good service.

The ground has received the careful and constant attention of the committee, who, finding that the person previously employed was unsuited for the work entrusted to him, made an arrangement with Mr. Hansen to superintend the field, and up to the present the committee have been fully satisfied with the management.

The number of members has, during the year, increased, being now 68 in number—62 active and 6 honorary, but not to such an extent as the committee had hoped, and they trust that every member will endeavour by introducing his friends to strengthen the Club.

The balance sheet to be presented is not unfavourable, there being an amount in the hands of the treasurer of $4,100 m|c., which is set apart to meet the expense of the repairs effected to the house on the ground, which were urgently called for. Tackle, amply sufficient to meet immediate requirements, has been purchased, and the Club in that particular is very satisfactorily placed.

The committee, in retiring from office, have but to express a hope that the management of the Club has not suffered in their hands, and it the measures they have adopted should meet the approval of the members they are more than repaid for any outlay of time and trouble which they may have incurred.

EDITOR'S TABLE.

We publish in another column a biographical sketch of the career and family of the late Lord Majoribanks. It will be read with interest by all those who know how fast a friend of this country the late nobleman was.

We feel much satisfaction in announcing that the new Lord Mayor has promised us to see to the repaving of Calle Rivadavia the moment he gets into harness. It will be an excellent beginning to Mr. Bunge's Mayoralty, and we beg to thank him on the part of the Public for his promise to grapple with such a serious drawback to traffic and the public convenience as the present lamentable state of the street in question.

We beg to offer a cordial salute to Mr. Davison, the new manager of the German Bank, on his arrival in the River Plate. Mr. Davison will prove the right man in the right place at the head of the first German Bank established in these countries. It is a somewhat singular coincidence that the German Bank in B. Ayres is managed by an Englishman, while the London and River Plate Bank is under the direction of a Teuton. The Anglo-German "entente cordiale" could not be more complete. Whoever desires to interview the manager of the first establishment will be expected to address him in the vernacular of Milton, while Goethe's mother tongue should be insisted on in the L. B. parlour, though Mr. Maschwitz is a tip-top hand at English. Laying down a categorical rule respecting this complimentary exchange of vernacalars might lead to financial catastrophes, but customers of both banks should conform to it as far as possible.

The Cordillera, of the Pacific line, is timed in the Company's itinerary to arrive at Montevideo to-morrow. Her arrival is anxiously looked for, as she is expected to bring important news from Spain, and as to the prospects of Mr. Lowe's Banking Bill, which has excited immense interest here.

An astounding story has reached us from New York. A great brewer there—probably Herr von Reussalear, or Herr Stiegel—lately fell into one of his own vats, at the moment full of the finest Lager. The Herr managed to keep his head above water (or rather above beer) for some time, shouting for assistance; but as none came and he could not get out, he set to and drank up every drop of the liquor in which he was immersed, thereby saving his valuable existence. This beats by long odds any story that ever came from the States within our recollection. None of the 'Maritime disasters' we have often been obliged to report can hold a candle to it.

Since we changed our quarters from the 'patio' where the 68500 ounces lie buried to our front premises in Calle San Martin we have been inconceivably pestered by people entering to ask if we sell Bonds, or buy cedulas, or stamp letters for Europe, or negotiate land lots &c. This arises no doubt from the financial inscriptions left on the doors and windows by our ex tenant, Mr. Vignoe, and which we have not had time to get taken down. To prevent the Public losing its time in such applications we beg to say that the only things we sell at the Court are newspapers. Money is far too tight still for us to dream of buying anything, even a pair of boots with the lowest heels; and as to negotiating land lots, we would n't touch them just now with a pitchfork or a pole forty feet in length.

To-day the charity sermon by the Rev. Father Davis will be preached in San Roque, in aid of the Irish congregations in Kansas belonging to the Most Rev. Dr. Miège's mission. It may be well to remind our readers that there are now 84 congregations in the above diocese, mostly Irish; many of them are in need of assistance for their hospitals and schools, in the erection of which Bishop Miège has incurred heavy debt. We have every confidence that many of those who so liberally came forward to support Father Vaughan in his work for Hispano-American populations will be equally generous towards their own countrymen.

Madame Ristori, the great Italian tragedienne, is now playing in London, at Drury-lane Theatre. She made her 'debut' in Medea, and created much sensation. *Public Opinion* says:—"Drury Lane:—Madame. Ristori.—It is nearly ten years ago since Madame Ristori last appeared in London. After long wanderings in many lands the accomplished Italian actress is among us once again with the old repertory—plus two new plays which are promised—and, it may be added, with no change in that 'starring' system which has so much to answer for in the way of marring the effect of her performances. Drury Lane Theatre has been engaged for the nights when opera is not performed, and there on Wednesday evening Madame Ristori appeared in Logouvé's Medea,' the piece in which she first won renown in this country. A few lines allowed to fall flat would be at times a positive relief in a performance so highly elaborated, but the Media of Madame Ristori, though painful is really a great study."

The Club La Plata gave a magnificent ball last night, the invitations to which were unusually numerous. The preparations were on a scale of great splendour and cost; and just after going to press we saw an 'opiparo' supper going up stairs. We shall say how the affair went off in our next issue.

The new Mortgage Bank, now being erected opposite our office on the site of Hibbert's Gore, deceased, is progressing at express speed, and if the builder keeps up the present pressure of steam the edifice promises to be finished before that financial palace—the Provincial Bank. Mr. Hunt is the architect of both buildings.

The splendid P.S.N.C. steamship Gallicia is expected from Valparaiso to-morrow, 'en route' for Europe. The mails from this city went down last night, also some passengers.

Merchants and others are beginning to enjoy and appreciate the early closing of the Bolsa, now a 'fait accompli.' There are half a dozen 'Irreconcileables' of the second 'volee,' whose 'lingering sweetness long drawn out' Garcia, the porter, finds it a little difficult to get rid of at the official hour; but a vigorous and persistent use of his bell has the effect of driving them half mad and about their business, so there will be no need to resort to a line to compel the strict observance of the new rule.

"An Omaha paper, without intending to be personal, insinuates that if the Omaha postmaster would resign, 'many persons would feel less anxious about their money letters.'"

"I saw," says a reporter, "a dog bite a man in the leg at the market. The man laughed and the dog bit, and it was a queer sight to look at, for the harder the dog bit the louder the man laughed, until the dog fainted away from exhaustion. It was the best sell on a dog that I have met with in this section. The man had a cork leg, and the dog left his teeth sticking in it."

"A little boy carrying home some eggs from the grocery, dropped them. 'Did you break any?' asked his mother, when he told her of it. 'No, said the little fellow, 'but the shells came off some of 'em.'"

The plans for the Cañuelas Railway will, we understand, be laid before Congress very shortly. This is good news for estancieros thereabouts.

Messrs. Lacrosse have received the necessary permission to connect their lines in Calles Rivadavia and Piedad by a loop near Almagro, above the Billinghurst station. The ivy creeping round the oak is nothing to the way in which tramway extensions are creeping round Buenos Ayres. We'll soon have tramway projects to take us upstairs to bed and downstairs to breakfast. A few more lines and the Tramway, with its noise, trumpeters, 'blocks up,' etc. will degenerate into the great Bore of the Age. Things are fast approaching this stage. With all the lines and all the competition we cannot as yet see the glimmer of a chance of the fares being reduced to a dollar, to which favour it must come at last sooner or late.

Mr. Devoto is about to build a private mansion on the Flores Road, next Mr. Wanklyn's splendid quinta.

A Quilmero informs us that three families have lately left town for Quilmes for the season, or perhaps for the whole four of them. This beats Flores which, as yet, has only scored two families. The question now is, what are Lomas and Belgrano doing in the way of immigration?

The Shah of Persia while at Brussels received tidings of the death of his mother; but as he is in Europe to amuse himself, he has intimated his intention of deferring the mourning and filial tears business till he gets back to Teheran. Wise man the Shaw!

"Who dat hit me? Where's dat lantern?" were the exclamations of an astonished Elmira darkey, after being thrown something like a hundred feet by a locomotive."

The magnificent steamer La France sails to-day for Europe. Those who wish to pay this vessel (the largest that plies with this port) a visit can make a pleasant trip to her to-day, as small steamers will run every two hours from the Mole to her, the price of a return ticket being only 50 paper dollars. The first steamer from the Mole starts at 10 o'clock a m.

The murder committed on Thursday in the confiteria at the corner of Calles Suipacha and Tucuman has quite startled the town. It appears, the assassin is a naval cadet, and only 16 years of age. He lost some money to the owner of the cake shop on Wednesday, and on the latter proposing to put it against an old bill due to him by Lemas, the cadet became furious and went away swearing he would have his creditor's life. He returned on Friday and finding the 'confitero' alone in his kitchen stabbed him to the heart. The unfortunate man fainted, and on returning to himself staggered to the nearest 'botica' where he fell dead. The murderer escaped. There seems to have been shocking premeditation of his crime on the part of this boy assassin; 24 hours and a night's sleep intervening between the threat and the fatal blow. The victim was a most undustrious and inoffensive man, an Italian.

A big aguardiente manufactory is about to be started at San Nicolas by a go-ahead Argentine. The spirit will be extracted from potatoes and peaches, of which there is generally an abundance in the neighbourhood.

A Mr. Jordan (nothing to Richard Lopez) has made a discovery in some out-of-the-way spot in Jujuy that will delight antiquarians. It is the war dress of an Inca warrior; the costume is of extraordinary richness, and all its ornaments are of solid gold. Mr. Jordan has expressed the praiseworthy intention of donating it to the Museum of Buenos Ayres.

There were no papers from the Mount yesterday, as Friday was a big holiday there, and nothing but feasting and fun going on. Commercial and monetary matters down there are said to look rather hazy just at present.

Story about a Beadle.—A church in the north country which needed a pastor had a beadle who took an active interest in all proceedings taken to fill up the vacancy. One of the candidates, after the afternoon service was over, put off the cloak in the vestry and stepped into the church, in which our worthy was just putting things to right. 'I am just taking a look at the church,' said the minister. 'Ay, tak a guid look at it,' said the beadle, for it's no likely ye'll ever see't again.'

The statue of General Belgrano is now placed and unveiled in Plaza Mayo. The pedestal is too large for the statue, and mars the effect of it.

The latest advices from Paraguay state that Caballero has thrown up the sponge, and disbanded his men, expressing his intention of 'nursing his wrath to keep it warm' and kicking up another rumpus as soon as the Brazilian and Argentine troops retire. A nice patriot is General Gentleman.!

Vienna is said to be the worst drained city in Europe. An exchange advises the inhabitants to send for Tweed, who drained New York so sucesstully.

An Illinois newspaper styles sensational clergymen 'performers on the moral trapeze.'

The Coolie immigration to Peru has led to such an enormous consumption and abuse of the deadly drug opium that the Government is about to take measures to grapple with the evil. The Coolies in Peru are said to be in the lowest state of degradation.

"There was a delicacy in the manner in which a foreigner having a friend hung in England broke the intelligence to his relatives on the other side of the Channel. He wrote as follows:—'Your brother had been addressing a large meeting of citizens, who manifested the deepest interest in him, when the platform upon which he stood, being, as was subsequently ascertained, very insecure, gave way, owing to which he fell and broke his neck.'"

The intelligence from Entre Rios is of the 'nothing new' pattern. Everything is in 'statu quo' on the National side, and deserters from the rebels declare that Lopez Jordan and his revolutionary hordes are in the same state of inactivity. It looks as if the combatants had agreed to differ, and not fight about it.

The *Prensa* announces some fatal cases of black small pox in this city. The disease is supposed to have been imported from Parana, where it is raging terribly.

The French packet is expected at Montevideo to-morrow with dates from Europe to the 27th ult.

General White, United States Resident Minister, has been in Montevideo for a few days.

'On dit' that Senator Granel will be run for the Governorship of Santa Fe at the next election.

A lot of medical books was stolen from a lighter in port the other night. Four men with crape over their faces rowed out to the lighter at midnight, boarded her, and made off with the books before the sleeping crew could prevent them. The books were hawking about the Boca for sale last week and the police have arrested a local druggist for having a finger in the pie. The whole bag of books are not worth fourpence.

The Italian diploma granting a gold medal to Mr. O'Gorman, Chief of Police, for his humane conduct during the plague, is published by the *Verdad*. It is signed by his Majesty King Victor—'il Re Galantuomo'—and the late Minister Ratazzi. There is much anxiety to know when the grand serenade to Mr. O'Gorman will be sung in the Plaza, as several prominent foreign residents, with beautiful voices, are desirous of chiming in.

The attendance at the funeral of the late Mr. Thomas Gowland, yesterday, was the largest ever seen on any similar occasion in this city. Over 500 of the leading residents attended, and to show their respect for the deceased gentleman, the coffin was not placed in the hearse, but carried by successive relays of his mourning friends to the Retiro.

Tremendous fiasco at the Colon Theatre last night! No Huguenots! no nothing! and to-night the irrepressible 'demi-monde' and demi-worn out TRAVIATA. Flesh and blood can not stand this sort of thing any longer. Señores Empresarios! There was terrific woe in fashionable circles at the disappointment, several ladies having begun to dress their hair at 3 o'clock. Crowds went to the doors, and "prayed upside down" for the lessees on reading the affiche.

Great races are announced at Lanus for the 1st October. See advertizement in another column.

DEATH OF MR. ROPES.

We regret to announce the death of Mr. Henry James Ropes, a leading member of the American community, for nearly half-a-century resident in B. Ayres and connected by commercial relations with his native country. He was born at Salem, Massachusetts, in March 1809; his father Capt. Benjamin G. Gardner Ropes, fought at Lundy's Lane, in Canada, against the British in the war of 1812. The family name was originally Roper, two brothers of that name being among the Pilgrim Fathers who arrived in the May Flower, and one of these was Capt. Ropes's ancestor.

Mr. Henry Ropes arrived in this country in 1829, and married M'lle. Marcelina Griman, a Porteña lady, connected with the families of Pizarro and Ortiz, among the founders of Buenos Ayres. By her he leaves 3 sons and 2 daughters, the former having been educated in England and the U. States, and the eldest in union with Mr Legnick now carries on the house of business which Mr. Ropes established here some 33 years ago. The brother of the deceased gentleman, Mr. Reuben Ropes, is a merchant in Pearl St., New York, of more than 40 years' standing, and most of that time he acted as agent for his brother here.

When Mr. Ropes went home, via England, in 1863, after an absence of 34 years, he found his aged mother still living, being then 88 years old. It is only a few days since we saw Mr. Ropes in perfect health; but one of his sons was laid up with small pox, and Mr. Ropes seems to have taken it from him. Medical assistance proved unavailing: he died yesterday at his town residence, Calle 25 de Mayo. He leaves much house-property in Brooklyn and in B. Ayres, besides a fine new country-house in Caballito and other property.

The funeral takes place to-day at 11 o'clock.

ON 'CHANGE.

July 19th 1873

Ounces	400
Sovs	122½
Pats	25
National Bonds	77½
Cedulas	87⅝

The reaction in the market is complete, to-day we not only had Bonds and Cedulas rising but in the barraqueros room payments which brought us back to the very business times of the wool season. Ten millions currency paid away to-day in the barraqueros' room showed the business of the week, and yet those payments were hardly felt in the market. Money has eased immensely for hypothecated loans, every discount broker in town offers funds on Cedulas and Bonds at 12 per cent. and the rate for these loans must give way next week such is the plethora of capital offering in this way. It would indeed seem as probable that the gigantic failure of Camino and Pino has touched this market so far as to disturb confidence in regular business paper, for the stories up from the Mount about the 'vale' system down there are to business men almost incredible. The great danger that besets this market now is too sudden a reaction; money comes on to the market so fast that the greatest care is necessary. We heard to-day of an operation to the extent of 400,000 m/c. which last week was simply impossible. Real estate brokers are again making up their lists of sales; it needs the most vigilant care on the part of all that this reaction does not come on too suddenly. We are so far advanced in what is termed the dull season that people forget we may yet have a very hard time to pull through in August; one of our first private banks discounted yesterday at 1 per cent. at least so it was affirmed on 'Change. Men of good credit and position find no difficulty whatever in obtaining money the only question being the rate, and the probabilities are that if the banks stand back, and are slow to give moneys for the new operations, merely helping those already on their books all will be well, for the prospects are really good. Millions to come into the country from abroad, abundance of produce to ship, a severe market liquidation passed, and the promise of a splendid wool clip at the approaching season. Exchange which ruled flat yesterday stiffened to-day and banks that refused to draw at 48½, to-day passed their bills at ⅝, Commercial paper was done at 49-49½.

This being Saturday there was a very crowded attendance on 'Change, and the closing hour was marked for 4 o'clock. As the bell rang out most of the leading men left the hall and we notice that the small fry is gradually diminishing soon all will come into the new arrangement.

Even at the banks to-day we heard of a brisk movement going on and the collections through town to-day were up to the mark, and showed returning ease amongst the dealers.

The sales to-day were—

In reviewing the stock operations of the day it is useful to remark that the bulls are feeling their way most cautiously. One sale of 120,000 bonds in one lot to-day represents a purchase made about 10 days ago at 73, the bull might have pushed the price further, but preferred to close at present rates, another very heavy lot at 74 has to be closed at the end of the month; luckily the operations in bonds during the height of the crisis were trifling, but in the cedula market it looks as if the bears will be cleaned out this month, the losses promise to be very severe.

It reminds one of old times now to see the brokers ring between 1 and 2 o'clock; in the greatest days of specie speculation the crowd was not greater.

There was gloom on 'Change to day when the death of Mr. H. J. Ropes was announced, one of the oldest merchants in the city, and much respected by all. It was said on 'Change that deceased died worth £150,000 to £200,000 sterling. Mr. Ropes was just concluding a magnificent country house at Caballito, proving the truth of the Spanish proverb, "Casa hecha, sepultura abierta." The funeral takes place, we believe, at 10.30 in the morning.

The funeral of Mr. Thomas Gowland to day was the most unexampled thing of the kind, and all the merchants on 'Change were talking of it. Over 500 persons, the first people of Buenos Ayres, attended, and all walked to the Retiro, the coffin being carried by the friends of the deceased. The demonstration of respect and esteem could not be more complete for a monarch.

Mr. Dennehy today sold two lots of land in the Boca for $54,000 and several enquiries have been made in his office for other lots of the same property. This shows how the wind blows for good Boca property.

The Hamburg steamer Buenos Ayres cleared to-day, taking 16 passengers.

In the South wool market to-day nothing much done it being Saturday. Arias has some splendid wool in, but the carts will not be opened until Monday.

To-morrow the steamer from Paraguay is looked for and with much interest as even in Government circles there seems nothing known about the treaty being signed, but our information may be relied on.

The Varela pamphlet about the public works loan was given round on 'Change to-day, few had time to read it.

Exchange was done on Montevideo to-day at par.

The Newton is loading up the river and expected down. The Copernicus to Boyd is also looked for hourly.

Italian bank shares 12, sold to-day at par. On Monday the meeting comes off and perhaps dividend declared.

Owing to yesterday being a holiday in Montevideo we have no business advices this morning from that quarter. Two failures that had occurred there through the Camino and Pino business have been arranged. Respecting the rumour that Pino had fled and was on board the Spanish corvette, Captain de la Torre, of the Spanish squadron, contradicts it 'in toto.'

The Cotopaxi has brought out 133 passengers for the River Plate. The Po, which sailed from here the other day, only took 95 passengers home, the majority of them being opulent 'maestros' and 'chacreros.'

The French barque Victorine, from Bordeaux to Valparaiso, has put into Montevideo in distress. Her manifest is published in the *Telegrafo*, showing a large assorted cargo for Valparaiso and Coquimbo.

Last week a trial of some Australian cans of preserved beef and some Maua cans preserved beef was made by the Rural Society Montevideo; after a most careful examination the Maua samples were declared the best; we are happy to learn that this business is now established on a splendid footing, the Maua factory shipping largely and selling at capital prices; this looks well.

Letters from Liverpool per Cotopaxi speak hopefully of the salted hide market; the news of the Entre Riano war and the prohibition against killing at the saladeros have operated favorably on the Liverpool market.

Specie is now coming up from Montevideo to this market, the last steamer brought up £4,000 sterling to Dn Juan Antonio Fernandez, the leading money broker.

The brig Damao, from Paragua to Montevideo, with yerba is a total loss, the cargo was sold to arrive, and the Crown of Sheilds landed at Pernambuco the Crew taken off the wreck.

The British barque Duke of Newcastle has put into Montevideo leaky. she has a guano cargo from Valparaiso to Liverpool.

The last news from Paraguay is the closing of all Parana ports, save Paso de la Patria, it may possibly interest some ship captains.

The Rosario mails came to hand to day, and the statement which appeared in some of the city papers respecting the 2d and 3d calls on the National Bank shares having been made is substantiated by the following notice, which appears in the Rosario papers—

"The shareholders of the National Bank are hereby notified that from 1st to 15th August the 2d and 3d calls on the shares will be payable.—Rosario, July 15th, 1873."

This is certainly taking time by the forelock. As there has been no allotment of shares, it is difficult to see how the calls can be well arranged. 'En fin,' we suppose the Rosario people understand the business. On the 15th inst. Mr Weldon, manager of the River Plate Bank there, arrived and was welcomed on the mole by a large crowd of friends. Mr. Colodro, the well known proprietor of the Cordoba Hotel, expired on the 15th inst. The Government of Cordoba seems fully determined to carry out its scheme of a Provincial Bank, and has paid in to the board of directors 70,000 patacons to make a start. This money is the proceeds of certain land sales made in Buenos Ayres. The Cordoba Gas business, after all, shows some signs of being carried out. An English agent arrived out the other day, had long conferences with the Government on the matter, and has returned to England to attend to the shipping of the plant.

Mr. Riecke, the agent of the Platino Brazileiro Telegraph Company, has arrived at Rio from England. It is also said that Major Rickard is in Rio, having arrived out by the last packet.

The receipts of the Custom house on the 15th inst. were heavy, amounting to 97,700 pats. This shows the business done.

The Minister has ordered the payment of 2190 pats. to Messrs. Hibbert and Co., of the Gore, for the Parana College expenses of May last. This shows that Messrs. Hibbert and Co. have more on hands than their literary rooms in Calle Florida.

Mr. Bollaert seems to be the only real estate broker doing a brisk business. We give the following list of sales this day effected by him. When Quilmes goes ahead so, the rest of the Republic must be doing well—

20x100	Calle Commercio	$46,000	Chacra Varanda
20x94	do	41,000	
50x50	Calle Nueva	37,500	
50x50	do	36,250	
50x50	do	35,000	
50x50	do	32,000	
50x50	do	34,000	
50x50	do	30,000	
50x50	Real (Chacra Pezzi)	15,000	
40x50	do	17,000	

It appears that advices have been received from London to the effect that Messrs. Murrietta and Co. have negotiated a further sum of the Public Works Loan, and that the National Government holds to its credit in London the sum of six hundred thousand pounds, against which the Government can draw as it may require. This news is without any official guarantee, and we merely give the rumor for what it is worth. Should it really be so, then the National Government may be regarded as out of the exchange market for the next six months; so exchange brokers, take notice.

Perhaps there are few stocks in the London market that show such a history as the B. Ayres Three per Cents., that are now completely bought up off the market, and at last quotations were 75. As a few details respecting this stock may be of interest to the investing public both here and at home, we give the following. Doubtless had D. Norberto de la Riestra remained in the Ministry of Hacienda, the bulk of this stock would now be amortized; but other men took office, and the matter was overlooked. The result is, that the country has now to pay fully one hundred per cent. for the oversight. Great as has been the rise in Argentine stocks in London, and even our stocks here, none show such figures as the Buenos Ayres Three per Cents., that have risen from the starting of the STANDARD, in 1861, from 17 to 75, and even at this latter rate the stock is not now to be had in London. The following are the particulars which we could obtain respecting this stock. A very large amount of the stock is held by Dublin bankers:—

The Government of Buenos Ayres, in settling its foreign debt in 1857, reserved to itself the right of increasing at any time the ordinary sinking fund assigned to the 3 per cent. Bonds, applying same to the redemption of stock by purchase in the open market.

Availing of that right, Government early in 1859 commenced making extra purchases of Bonds, and up to 1862 had redeemed the sum of £284,400 of Bonds, at a cost of only £69,556 15s. The lowest price paid was 17 per cent.; the highest, 38½. Average cost, 24½ per do.

Ever since 1862 the extraordinary amortization ceased, with the exception of £13,000, Bonds purchased in 1864 at a cost of £5,070.

The stock was reduced on the 31st December last to £929,100. The price of the Bonds is now 75 per cent., and difficult to be had. Government will probably have to pay a higher price in future amortizations by the ordinary sinking fund.

The mails from Brazil are important. We extract from our Rio colleagues the following—

"Exchange since last mail has fluctuated between 25¾ and 26 bank; and 26 to 26¼ private bills. The tightness of the money market assisted to maintain rates, but already this month the paying out of the dividends has made monetary matters easy, and present rates may not be maintained, as the stock of coffee is small and supplies from the Interior limited. We cannot, therefore, consider that the present rates can be maintained.

"Banks are drawing at 25¾ to 25⅞, and commercial bills are 26⅛ and 26¼.

"Government Stock Six per Cents.—Sales ex-dividend have been made as high as R.1:040$ to R.1:050$000.

"Gold Bonds.—The annual drawing, as announced by Government, took place on the 26th ult.

"An effort was made to depress the market, but this stock is too strongly held. Present price R.1:080$ to R.1:090$000.

"Bank of Brazil Shares.—Some sales effected at 248$ ex-div.

"Sovereigns maintain a high value compared with exchange. Last sales were at 9$500 to 9$560.

"Money, owing to the payment of dividends, is easy, and good commercial bills are discounted at 6 to 8 per cent.

"The duties on imports and exports received by the Rio Custom house during the fiscal year ending June 30th amounted to 38,488:378$, exceeding the collection of the previous year by 3,542:355$. Of this increase 3.176:140$ was due to exports, the duties on which reached 9,381:614$ in the just ended year, being an increase of 50 per cent. on those of the preceding year.

"The gross profits (upon 33,00:000$) of the Bank of Brazil during the first half of this year were 2,970:459$546, of which 1,320:000$ has been divided, and 1,199:321$911 placed to the reserve fund.

"The following statement of the shipment of coffee is most important—

	1st half 1872.	1st half 1873.
Totals	625,429 sacks	1,096,461 sacks.
Namely—		
N. Europe	142,819	413,682
Mediterranean	23,845	86,912
U. States	389,041	534,934
C. G. Hope	19,901	11,072
Various ports	49,823	49,961

"Freights.—Although business has been limited, freights must be considered firm with an upward tendency, owing to the small amount of tonnage in port.

Channel and Mediterranean, 30s. to 32/6.
U. States, North, 20s. to 27/6.

"Orders have been given to Captain Silveira da Motta to sink a wreck observed in lat. 30,16 S and long. 49.54 W. Gr.

"The province of Espirito Santo has contracted with Lieut. Col. S. Pedroso do Amaral the importation and settlement of 200 German immigrants.

"The General Government has authorised the renewal of the provincial contract with Pedro Tabachi for the importation and settlement of 700 Germans in Santa Cruz, Espirito Santo. The Government engages to give 200$ for each over ten years of age.

"By decree of May 24th the contract has been renewed with Conselheiro Polycarpo Lopez de Leao and Dr. Ega. Muniz Barreto de Aragao for the importation of 10,000 immigrants, within six years, into Bahia and Maranham.

"A concession has been granted to Lorenzo Seixas to construct a railway between Corumba, Matto Grosso, and the frontiers of Bolivia. Rather an important line this.

"Proposals for the working and completion of the Dom Pedro II. Railway are now before the Government, sent in by Baron de Maua and by Conselheiro Christiano B. Ottoni.

"A company has been formed in Paris to establish steam navigation of the Upper S. Francisco and its tributaries.

"Messrs. J. M. da Silva and F. X. Oliveira de Menezes are seeking the concession of city telegraph lines in Rio and Nitherohy.

"The city of Paranagua was to be lighted with gas on the 1st July."

The Scotch papers give the following—

"At Edinburgh, yesterday, Lord Gifford gave judgment in the suit which resulted from the collision between the Andes of Glasgow and the Perreire of Havre. He decided that the Andes was in fault in having sailed on the wrong side of the Channel, and having crossed the bow of the Perreire. He accordingly found the owners of the Andes liable in damages of £500, with expenses, to the owners of the Perreire, and dismissed the claim against the latter by the owners of the Andes for £4,000 damages."

The following is the list of the board of directors of the Hypothecary Bank; a question having arisen on 'Change as to the names, we give the official list—

President, Sr. Balbin.
Directors, Sr. M. Casares.
Peña.
Riestra.
Llavoliol.
Mallmann.
Dr. Quintana.

Mutual Gas Co.—The Leopold II. brings out about 7,000 yards of cast iron pipes for this company, besides half the large gasholder tank, which is of cast iron also. Opening trenches for street mains commenced last Thursday morning in Calle Europa, and as all the main layers are professionals from England, we shall expect the work done quickly and well. 2,000 of the 4,000 lamps have to be lighted by 1st March 1874, so that the engineers and workmen will have plenty to do. Mr. Geo. Bower's representative is confident of doing this, but as there is about 100 miles of pipes to lay, the time does not seem too long. We purpose visiting the fabric on Wednesday, and will review it the same as the cloth factory, so that our readers may be well posted up in Argentine enterprises.

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other avocities.

The Bank of Mauá & Co. of this city, following the example of their firm in Montevideo, the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Mauá & Co.,

M. A. de FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. $) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

New Patent R.R. Grease
YELLOW GREASE

Manufactured and Patented by
RICHARD GAMBLE.

Suitable only for this Climate
and
Not for Europa.

It is manufactured to suit Summer, Winter and Spring, and is only used for Railways, Tramways and Carts, Bullock Waggons, &c.

It consists of Nine different fluid oils and solidified by a chemical process. It will resist the hottest sun, and will not get into a liquid or fluid state. It is only when the action of the axles commences it becomes a rich creamy fluid, and when the action stops its again solidifies.

It is of a suitable consistency, of good lasting power, attended with but little increase of temperature even at the highest speeds, and leaves but the smallest residue in the axle boxes. A grease which is too firm will remain comparatively solid in the box, and allow the axle to become hot, whilst on the other hand one that is too thin becomes exhausted by a few miles running.

This Grease is of more importance than at firm sight appears; for while the grease account s railway companies forms no inconsiderable itet of expenditure, the waste of motive power and wear and tear of plant entailed by the use of unsuitable grease is enormous.

The merits of the Grease, in its general utility as a

LUBRICANT,
and also for its
CHEAPNESS,

are shown, when compared with other kinds hitherto used, that are entirely useless for any purpose but that of lubrication.

It is therefore much less liable to be pilfered and misapplied than tallow, lard, neatsfoot oil, potro oil, rape oil or gallipole oil.

These oils always command a ready market if pilfered, a circumstance which induced the principal railway companies in England to adopt Yellow Grease for their protection and manufactureto suit European climate.

THE BEST THING TO DO
IN
THE CRISIS.

What is the best way to invest a few hundred dollars every month during the Crisis?

In a building plot of land, well situated: for that can't smash, Crisis or no Crisis.

Where is the place best situated with a view to the future?

Undoubtedly at the Boca, just close to the railway station, or between the railway and Calle Defensa.

Why do you direct me there?

Because that place is going ahead so fast that in a very short time what little land there is between the Boca and the city will be all built on, and because I have orders to sell for building plots a few chosen squares between the railway and Calle Defensa and between the city and the Boca.

How do you sell them, and on what terms?

I can sell 10 or 20 yards fronting on such principal streets as Defensa, Balcarce, Olivaria, etc., by various depths up to 50 yards, at a price as low as $12,000, payable without interest in fifteen monthly instalments of only $800 each; and before the last instalment is paid the land will very probably be double, perhaps treble, its present value.

General Post-Office.
CLOSING
OF THE
CONSULAR POST-OFFICES

WHEREAS, the National Government issued a decree on the 29th January, 1873, as follows:

1st. That the Provincial Government of Buenos Ayres in February, 1853, and September, 1858, gave permission to the Royal Mail and Mensageries Imperiales to make up letter-bags at the British and French Consulates.

2nd. That as we have now numerous lines of steamers to Europe, Brazil and the West Coast, the motive for such permission no longer exists.

3rd. That as many mercantile houses now sell English and French postage-stamps the Public will still be able to pre-pay their letters home independent of the Consuls.

4th. That the Post-Office is a branch of our internal revenue. The Minister of Foreign Affairs having published a note on this matter, dated September 4th, 1872, and the Postmaster-General and Attorney-General having given their views on the case,

It is hereby decreed—

1st. That the permission given by the Government of Buenos Ayres is hereby annulled.

2nd. All letters entering or leaving the Republic must pass only through the Post-Office.

3rd. Letters may be sent with or without the foreign stamps, but must have the Argentine stamp, until a postal convention be agreed on.

4th. This decree begins to have effect from July 1st, 1873.

SARMIENTO,
U. FRIAS.

In virtue of the above any letters for the Royal Mail packets or French Mensagerias must be posted at, and sent by the Argentine Post-Office, in the same manner as hitherto for the other steam-packets, that is, pre-paid with an Argentine stamp over and above any English or French stamps. The bags will be delivered to the mail agent on board the English or French steamers, on the day and hour fixed by the agents of those lines.
